Christine Hackford has been the face of HIV service and care in Brevard for almost  ${\bf 3}$ decades. As an employee of Project Response, Inc. Chris has served as case manager, Director of Case Management, Compliance officer and completing her career as Executive Director. She not only gave her time, talent, and heart to those living with HIV, when times were tough, her and her husband Joe helped to keep the agency afloat. Because it was that important to the community, because a place where those living with and learning of HIV was critical to the community. Project Response Yes

| Christine | Hackford | Brevard | Lifetime Achievement Award | always operated with a all welcome no judgement attitude. Chris was here for one reason, to service clients the best way possible. She was instrumental in opening the Project Response Testing and Treatment center adding doctors and testing to our location. She expanded testing throughout the county and for many years, over saw the Project Response office in FT Pierce where case management served nearly 900 clients through the pac project. Chris spent 27 years working the front lines at Project Response. Without her dedication, her heart and her love of the community, we would not be the agency we are today. Chris retired this August (2024) and I can not think of anyone more deserving than her for this prestigious recognition. A recognition she would never seek for herself. | t<br>Yes |

| Tracey    | Robinson | orange  | Service Award              | Tracey is a vital part of the Ryan White Community. She is a great help to everyone she come in contact with. Tracey is the epitome of an angel. She works all hours of the day, morning, noon and night (even weekends) to ensure her clients get the services due to them. The work hours do not always accommodate the needs of the client, so she makes sure to meet the client at their need. Tracey more than deserves to be recognized for the Ryan White Service Award.   | e<br>Yes |
|           |          |         |                            | Norm has been working over 10 years with the Hope &Help Center and in this time, he has had many jobs to help the community. Norm has been able to assist with everything from insurance enrollment, to covering Ryan White Clients within the state through the part B grant, to now being with the Ryan White part A grant for a while.  Although Norm may look like he has a hard exterior, he has a heart of gold. He has been able to support his clients through many ups and downs that their diagnosis has given them. I have personally seen Norm assist clients with every inch of Ryan White's program through patience, understanding, education, and above all compassion.  Norm's service to not only the Hope & Help organization, but to all clients he has been                                | ;<br>1   |
