

Ending the HIV Epidemic

A PLAN FOR AMERICA

HHS is proposing a once-in-a-generation opportunity to eliminate new HIV infections in our nation. This initiative will work to accelerate progress and end the HIV epidemic by directing new funds to those communities affected by HIV in a phased approach, starting with the areas with the highest burden. The multi-year program will infuse 48 counties; Washington, D.C.; and San Juan, Puerto Rico, as well as 7 states that have a substantial rural HIV burden, with the additional expertise, technology, and resources needed to end the HIV epidemic in the United States. Data on the burden of the current epidemic were analyzed to identify the counties with the highest number of new HIV diagnoses, the states with the heaviest rural HIV burden, and the territorial area now hardest hit. The 48 counties; Washington, D.C.; and San Juan, Puerto Rico accounted for more than 50 percent of new HIV diagnoses in recent years.
