

Integrated HIV and Prevention and Care Plan Work Plan and Monitoring Table, 2022-2026

Goal 1: Prevent new HIV infections.							
EHE Pillar: PREVENT							
Objective 1.1 Increase HIV Awareness by 2026							
Strategy 1.1.1 Develop and implement campaigns and resources to provide education about comprehensive sexual health; HIV transmission risks; options for prevention, testing, care, and treatment; and HIV-related stigma reduction.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Increase the use of digital media resources to include messaging on dating apps (e.g., Grindr) and social media apps)	Insght data from messaging and social media sites (i.e., # of messages sent, demographic data, etc.) May need to change wording for the metrics to be more specific.				Work with Provide to capture how clients heard about the services. Train the system on answering questions on how they heard about services. Develop a mechanism to demonstrate website traffic based launched campaigns.		135,000 visits to the www.CentralFLHIV since April 2021
Develop stigma toolkit/campaign and localized stigma task forces (survey to become part of toolkit).	# of individuals participating in stigma taskforce meetings (determined by sign-in sheets). Workplan/SOW, meeting minutes and/or agendas	2022				Part A and subrecipients	
Increase culturally competent sexual health education outside of the school systems.	# of educational sessions conducted	2023				Peer Support Space, HIP and EHE providers	December 2022-February 2023 total of 27 participants in 3 meetings
Increase targeted outreach and education efforts specific to specialized groups, (e.g., FQHCs, local gang taskforces, and other geographically disproportionate communities.)	# of outreach sessions conducted and types of providers participating	2024				HIP providers	Let's BeeHive Sista to Sista Classes 2022 total of 7 total of 11 classes of 3 classes 2023 2024 total
Offer in-person learning opportunities for basic HIV 101 education and increase the number of trained HIV 101 educators.	# of classes and participants for each completing each training	2024			Monthly progress reports to accompany monthly invoices submitted to Area 7 contract manager.	HIP and EHE providers	HIP Face to Face outreach total 200
Provide HIV education and information to youth-centered outreach stakeholders to encourage buy-in and adoption of culturally competent sexual health education curriculum.	# of educational sessions conducted and types of providers participating	2024				Areas 7 and 3/13 HIP providers	2022 24 classes (480 participants) 2023 18 classes (360 participants) 2024 20 classes (400 Participants)
		2023			Monthly progress reports to accompany monthly invoices submitted to Area 7 contract manager.	HIP and EHE providers	July-June 2023-265 youth educated through 4 educational sessions with Boys and Girls Club Downtown Orlando July-June 2024 220 youth educated through 3 educational session with the Boys and Girls Club
Strategy 1.1.2 Increase awareness of HIV among people, communities, and health workforce in disproportionately impacted areas.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Increase targeted outreach and education efforts specific to specialized groups, (e.g., FQHCs, local gang taskforces, and other geographically disproportionate communities.)	# of outreach sessions conducted and types of providers participating	2023			Monthly progress reports to accompany monthly invoices submitted to Area 7 contract manager.	HIP and EHE providers	HIP Face to Face outreach total 200
Offer in-person learning opportunities for basic HIV 101 education and increase the number of trained HIV 101 educators.	# of classes and participants for each completing each training	2024				Areas 7 and 3/13 HIP providers	2022 24 classes (480 participants) 2023 18 classes (360 participants) 2024 20 classes (400 Participants)
Provide HIV education and information to youth-centered outreach stakeholders to encourage buy-in and adoption of culturally competent sexual health education curriculum.	# of educational sessions conducted and types of providers participating	2023			Monthly progress reports to accompany monthly invoices submitted to Area 7 contract manager.	HIP and EHE providers	July-June 2023-265 youth educated through 4 educational sessions with Boys and Girls Club Downtown Orlando July-June 2024 220 youth educated through 3 educational session with the Boys and Girls Club
Strategy 1.1.3							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Collaborate with local partners to educate providers across multiple platforms on Syndemics and work to incorporate HIV messaging in the platforms' communicable disease content.	# of local educational sessions conducted and # of Syndemics partners who participate		2024			RWHAP and FLDOH STI providers	Area 7 Quarterly Partner meetings total of 16 meetings (from 2022-2024)
Increase awareness and collaboration with existing SSP to incorporate hepatitis, STIs, mental health and substance abuse messaging in campaigns.	# of campaign efforts completed		2024			RWHAP and FDOH STI providers, IDEA Orlando	
Objective 1.2 Increase knowledge of HIV status by 2026							
Strategy 1.2.1 Test people for HIV according to the most recent USPSTF recommendations and CDC guidelines.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Address and overcome barriers to routine HIV and other STI screening in healthcare settings and priority testing in non-healthcare settings.	# of routine HIV and STI screenings conducted in healthcare and non-healthcare settings	2022			Monthly progress reports to accompany monthly invoices submitted to Area 7 contract manager and STI clinic.	RWHAP and FDOH STI providers	2023-2024 toal of 1026 STI Screenings through EHE Providers 2025 total of 1026 STI Sorentings through EHE Providers
Expand routine HIV and other STI testing to include additional medical settings (e.g., EDs, urgent care facilities, OB/GYNs, and PCPs) while addressing barriers.	# of routine HIV and STI screenings conducted in healthcare settings	2023			The monthly reports from the focus initiative	RWHAP and FDOH STI providers, acute care hospitals, healthcare systems, urgent care facilities, and community-based medical practices	Orlando Health 2023-4/23/2025 4133 tested Advent 2025
Strategy 1.2.2: Develop new and expand existing implementation of effective, evidence-based or evidence-informed models for HIV testing that improve convenience and access.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Target testing resources to areas experiencing high transmission rates.	# of testing resources provided in ZIP Codes with high HIV infection rates	2022			Amend the contracts to ensure that testing location data is available.	HIV testing providers	? define testing resource
Adopt and adapt interventions designed for populations with high exposure rates (MSM, trans people, etc.).	# of interventions adopted, # of subpopulations receiving interventions	2022			Monthly reports and MOU monthly reports and EHE reports	HIP, EHE, and RWHAP providers	2023 Diva and Dialogue 29 sessions (87 participants transgender) 2024 Divas and Dialogue 24 sessions (72 participants transgender)
Continue and expand reviews of perinatal HIV transmission cases to determine how to improve systems of care.	# of case reviews conducted	2022			Ensure monthly reports include	Part C, TOPWA, OBGYNs, pediatricians, labor and delivery unit staff	

Provide easy-to-access home test kits, including those distributed by self-serve vending machines and as add-ons to other self-administered tests (e.g., COVID-19, pregnancy).	# of HIV home test kits issued, # of HIV test kits distributed by vending machines, # of HIV test distributed as add-ons to other self-administered kits	2022	Monthly reports and EHE reports	FDOH Areas 7 and 3/13 (home test kits), FDOH (pregnancy and COVID tests), TOPWA	August 2022-November 2023 total of 1507 HIV home test distributed		
Improve reporting structures to increase linkage to prevention, care, and treatment among people using self-administered HIV test.	# number of new policies implemented and # of existing policies updated	2023	Ensure monthly reports include	FDOH	?		
Strategy 1.2.3: Incorporate a status-neutral approach to HIV testing, offering linkage to prevention services for people who test seronegative and immediate linkage to HIV care and treatment for PWH.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Develop and disseminate status multi-media neutral resources, including education materials related to HIV/STI prevention, testing, linkage, care, and treatment. (Use a multimedia approach to disseminate status neutral messaging)	# of resources developed and # disseminated	2024				FDOH	2022 and 2023 Dear colleague letter was sent to 685 providers on Routine HIV Testing, HIV Perinatal Prevention, PrEP Access and Rapid HIV Treatment Jan-June 2022 total of 19 campaigns (8,408,874 impressions) July-December 2022 total of 27 campaigns (9,653,262 impressions) Jan-June 2023 total of 27 campaigns (6,948,503 impressions) July-December 2023 25 campaigns (6,769,228 impressions)
Support informational campaigns and social media messaging around HIV/STI testing, PrEP, PEP, and linkage to care.	# of campaigns and insight data	2022			Social media influencer monthly report	HIV testing providers and HIP, EHE, RWHAP providers	
Strategy 1.2.4: Provide partner services to people with HIV or other STIs and their sexual or needle-sharing partners.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Increase the capacity of partner services by increased funding for DIS positions.	# of full-time equivalent DIS positions	2024				FDOH	
Increase the capacity of partner services by conducting telehealth to conduct sessions.	# of telehealth partner sessions	2024				FDOH	
Increase the capacity of partner services by expanding hours of operation.	# of partner service programs increasing their hours of operation	2024				FDOH	
Use partner services to provide partners with access to PrEP and educational materials.	# of HIV seronegative partners referred to PrEP and # of HIV seronegative partners receiving educational materials	2024				FDOH	
Increase the number of harm reduction programs to increase the capacity of prevention services.	# of harm reduction programs	2024				Boards of County Commissioners, RWHAP and FDOH providers, IDEA Orlando	
Objective 1.3 Expand and improve implementation of effective prevention interventions from seven to ten by 2026.							
Strategy: 1.3.1: Engage people at risk for HIV in traditional public health and healthcare delivery systems, as well non-traditional community settings.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Increase the number of community mobilization initiatives and partnerships in communities (e.g., FRTA/BRTA).	# of businesses agreeing to become a FRTA/BRTA provider	2022				HIP and EHE providers	2022 108 business agreed to become A BRTA Area 7 Program office HIP providers 2022-2024 168 total BRTA partners
Increase collaboration with local Prevention Interventions Taskforces in raising awareness, sharing resources, and providing referrals to HIV testing (e.g., using non-healthcare events), share resources, and provide referrals.	# of collaborating taskforces and # of collaborative events	2022				EHE, HIP, and RWHAP providers	July-June 2022 total of 45 collaborating events coordinated through the following: Sistat Organizing to Survive, Talk Test Treat Latinos Taskforce and Talk Test Treat July-June 2023 total of 44 collaborating events through the following: Sistat Organizing to Survive, Talk Test Treat Latinos Taskforce and Talk Test Treat
Increase academic detailing in primary care community solo and group practices, urgent care centers, and EDs to raise awareness of HIV prevention interventions.	# of academic detailing events and # of settings in which academic detailing events are conducted	2022				RWHAP Part A, AETC, FDOH Areas 7 and 3/13 lead agencies	Area 7 physician detailing 2022-2024 336 events 4 different settings (OBGYN, Internal medicine, Primary care, urgent care centers)
Increase targeted outreach and education efforts specific to individual youth and organizations serving youth.	# of outreach and education events targeting individual youth and organizations serving youth and # of youth and teen groups receiving targeted outreach and education efforts	2022				Parts A, B, C, EHE, and HIP providers, FDOH Areas 7 and 3/13 lead agencies, Scale it Up Florida	July-June 2023-265 youth educated through 4 educational sessions with Boys and Girls Club Downtown Orlando July-June 2024 220 youth educated through 3 educational session with the Boys and Girls Club
Strategy 1.3.2: Scale-up treatment as prevention by diagnosing PWHs as early as possible and engaging them in care and treatment to achieve and sustain viral suppression.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Expand and increase the capacity of local Rapid Access Taskforces to expand the number of rapid access programs.	# of Rapid Access providers created and # of people linked through the providers	2023			The MOU quarterly reports.	Parts A, B, and C, EHE, and HIP providers	Number of rapid access providers as of 4/2024 17 providers through clinical MOA Number of people linked TBA
Increase the number of peers providing care and treatment support and healthcare navigation services.	# of peers employed to provide treatment support and navigation services, # of PWH receiving peer services, # of units of peer services received per PWH, % of PWH with suppressed VL, % of PWH with sustained viral suppression over time (applying HAB performance measures)	2023			Develop a service standard.	Parts A, B, and C, EHE, and HIP providers	EHE/Ryan White Part A employed 6 peers under two subreceptiops. HIP peers 6 employed from 2023-2024 total PWH1957
Scale up HIV injectables programs.	# of injectables programs for treatment and PrEP services	2023			Develop a survey about the number of peers in the system and notification of when new peers are hired.	Part A, B, and C, EHE, and HIP providers, ADAP	
Strategy 1.3.3: Make HIV prevention, including condoms, PrEP, PEP, SSPs easier to access and support continued use.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Increase the number of PrEP and PEP prescribers through provision of academic detailing and education.	# of PrEP providers and # number of academic detailing activities conducted	2022			HIP and EHE providers, AETC		
Increase the # of SSP (including clean needle distribution and exchange) statewide and ensure local sites are placed in proximity of known overdose events or deaths.	# of SSPs established and # of known overdoses	2026			BCC (for counties that have not implemented an SSP program), Areas 7 and 3/13 lead agencies, PART A, IDEA Orlando		
Strategy 1.3.4: Implement culturally competent and linguistically appropriate models and other innovative approaches for delivering HIV prevention services.4							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Provide linguistically appropriate HIV messaging in English, Spanish, and Haitian Creole.	# of HIV messages in English, Spanish, and Haitian Creole	2022			Parts A, B, and C, EHE, and HIP providers, Areas 7 and 3/13 lead agencies	EHE monthly reports and Part A monthly reports	2022 World AIDS Day Messaging Spanish (95,013 insights) 2022 Puerto Rican Day Parade (125,000 insights) 2023 World AIDS Day Messaging Spanish (100,025 insights) 2023 Haitians Who Blog Women and Girls Messaging (10,000 insights) 2023 Haitians Who Blog Haitian Flag Day HIV Messaging (5,065 insights)
Increase cultural competency training workshops and other linguistically appropriate trainings for delivering HIV prevention services.	# of trainings conducted	2024			Part A, Part B, EHE, and HIP, providers, Areas 7 and 3/13 lead agencies, AETC		2022 24 classes (480 participants) 2023 18 classes (360 participants) 2024 20 classes (400 Participants)
Engage with local and state, civic, political, community, and spiritual leaders to increase HIV awareness among populations living with or affected by HIV.	# of local, state, civic, political, and community leaders, # of spiritual leaders engaged in HIV awareness outreach sessions, and # of HIV training sessions to spiritual leaders	2023			Part A, Part B, EHE, and HIP, providers, Areas 7 and 3/13 lead agencies	EHE monthly reports	2024 Area 7 engaged with 25 faith leaders session through 5 sessions
Goal 2: Improve HIV-related health outcomes among PWH.							
EHE Pillar: DIAGNOSE							

Objective 2.1 Rapidly link PWH to care after diagnosis and provide low-barrier access to HIV care and treatment.							
Strategy 2.1.1 Increase linkage to HIV medical care within same day to 30 days of HIV diagnosis.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Increase awareness among local healthcare providers by disseminating messaging on T&T and rapid ARV protocols.	# of messages on T&T and rapid ARV protocols created and distributed and # of healthcare providers receiving messages on T&T and rapid ARV protocols	2023				Part A, Part B, EHE, and HIP, providers, Areas 7 and 3/13 lead agencies	2022 and 2023 Dear colleague letter was sent to 685 providers on Routine HIV Testing, HIV Perinatal Prevention, PrEP Access and Rapid HIV Treatment Area 7 EIS/Linkage from 2022-2024 900 food vouchers provided to PWH, Area 7 EIS/Linkage from 2022-2024 900 bus passes provided to PWH, Part A -Number of Unduplicated Clients who received food vouchers 2022-2023 - 490, 2023-2024 - 836, 2024-2025 - 892, Part A -Number of Unduplicated Clients who received transportation services 2022-2023 - 536, 2023-2024 - 701, 2024-2025 - 677
Fund food and transportation vouchers, as well as phones to support linkage to care among PWH not in care.	# of food vouchers provided to PWH linking to care, # of transportation vouchers provided to PWH linking to care, # of phones distributed to PWH linking to care	2023				Part A, Part B, EHE, and HIP, providers, Areas 7 and 3/13 lead agencies	
Expand the number of healthcare and other organizations offering T&T services including rapid access to ARVs.	# of organizations offering T&T services	2024				Part A, Part B, EHE, and HIP providers, Areas 7 and 3/13 lead agencies	Number of rapid access providers as of 4/2024 17 providers through clinical MOA Number of people linked TBA
Strategy 2.1.1 Increase linkage to HIV medical care within same day to 30 days of HIV diagnosis.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Expand routine HIV and STI testing to additional healthcare settings (e.g., pediatricians, primary care practices, and student health centers).	# of healthcare settings providing routine HIV and STI testing	2024				Parts A and B, EHE, and HIP, providers, Areas 7 and 3/13 lead agencies, healthcare agencies, clinicians	
Objective 2.2: Identify, engage, or reengage PWH not in care or in care but not virally suppressed.							
Strategy 2.2.1: Expand uptake of D2C models through data use agreements, integration data systems, and use of surveillance, clinical services, pharmacy, and social/support services data to identify and engage people not in care or not virally suppressed.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Collaborate with local partners and providers across more platforms to incorporate more T&T facilities that will offer rapid ART and PrEP/PEP medications.	# of T&T facilities that offer rapid ART and PrEP/PEP medications	2024				Parts A and B, EHE, HIP providers, Areas 7 and 3/13 lead agencies	Area 7 physician detailing 2022-2024 336 events 4 different settings (OBGYN, Internal medicine, Primary care, urgent care centers) 2022 and 2023 Dear colleague letter was sent to 685 providers on Routine HIV Testing, HIV Perinatal Prevention, PrEP Access and Rapid HIV Treatment
Execute cooperative agreements and/or DUAs with jails, prisons, and contracting healthcare providers to link PWH before or upon released inmates linked to care services.	# of cooperative agreements and/or DUAs created with jails, prisons, and contracting healthcare providers and # of recently released inmates linked to care services	2022				Parts A, B, C, EHE, and HIP providers, Areas 7 and 3/13 lead agencies, FL DOC, County Jails	
Objective 2.3: Increase retention and adherence to treatment to achieve and maintain long-term viral suppression.							
Strategy 2.3.1 Develop and implement effective, evidence-based/informed interventions and support services that improve retention in care.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Collaborate with local partners to educate healthcare providers on Syndemics and incorporate HIV into primary care and internal medicine practices.	# of providers trained, # of primary care practices that incorporate routine HIV care,	2023				Parts A and B, EHE, and HIP providers, Areas 7 and 3/13 lead agencies, medical practices, AETC	Area 7 physician detailing 2022-2024 336 events 4 different settings (OBGYN, Internal medicine, Primary care, urgent care centers) 2
Expand peer linkage and Community Health Workers (CHWs) to implement Anti-Retroviral Treatment and Access to Services (ARTAS) intervention strategies and adherence measures.	# of peers and CHWs trained and # of CHWs certified	2022				Parts A and B, EHE, and HIP providers, Areas 7 and 3/13 lead agencies, certification programs	total of 2 peers supporting the ARTS program from 2022-2025
Goal 3: Reduce HIV-related disparities and health inequities.							
EHE Pillar: TREAT							
Objective 3.1 Reduce HIV-related stigma and discrimination							
Strategy 3.1.1 Ensure that healthcare professionals and front-line staff complete education and training on stigma, discrimination, and unrecognized bias toward populations with or at risk for HIV.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Identify and disseminate continuing education opportunities and training for healthcare professionals and front-line workers on HIV stigma.	# of materials or resources created and # of materials or resources distributed	2023				Parts A and B, EHE, and HIP, providers, Areas 7 and 3/13 lead agencies, AETC, Area Health Education Centers (AHEC)	
Work with professional organizations to encourage the adoption of HIV stigma training as part of professional standards for healthcare professionals and front-line staff.	# of stigma trainings conducted, # of trainees, # of professional organizations that adopt HIV stigma training	2023				Part A, Part B, EHE, and HIP, providers, Areas 7 and 3/13 lead agencies, AETC, local medical society chapters	
Strategy 3.1.2 Ensure HIV educational resources are focused on the communities and populations where the need is greatest (e.g., Black, Hispanic/Latino, American Indian/Alaska Native, and other people of color, gay and bisexual men, transgender people, people who use substances, sex workers, and immigrants).							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Create and/or adopt informational materials focusing on communities and population where the need is greatest.	# of informational materials created or adopted	2023				Parts A, B, EHE, and HIP providers, Areas 7 and 3/13 lead agencies, AETC	
Support ongoing and new initiatives and programs specifically focused on communities and populations where the need is greatest.	# of new initiatives funded and # of established programs funded	2023				Parts A, B, EHE, and HIP providers, Areas 7 and 3/13 lead agencies, AETC, CBOs	
Increase the number of mobile medical units and street outreach to bring services and resources to communities and populations where the need is greatest.	# of people receiving outreach encounters (e.g., HIV testing, materials, etc.)	2022				Parts A, B, EHE, and HIP providers, Areas 7 and 3/13 lead agencies, AETC, CBOs	From 2022 to current there are a total of 20 service providers have mobile medical units
Objective 3.2 Reduce disparities in new HIV infections, awareness of HIV status, and along the HIV Care Continuum							
Strategy 3.2.1 Increase awareness of HIV-related disparities in the OSA through data collection, analysis, and dissemination of findings.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Develop and/or expand the use of easy-to-read materials (e.g., infographics, one-pagers) to help audiences of varying types (e.g., the public, PWH, providers) to highlight disparities.	# of materials created and/or adopted	2022				Part A, Part B, EHE, and HIP providers, Areas 7 and 3/13 lead agencies	
Expand the use of data dashboards and provide education to relevant groups on how to access and use the information to increase awareness of HIV-related disparities.	# of data dashboards created and # of individuals using the data dashboards	2024				Part A	Data dashboard created for EHE initiatives (Jail Linkage and Community Testing Linkage)
Objective 3.3: Address social determinants of health and co-occurring conditions that contribute to HIV-related disparities.uce disparities in new HIV infections, awareness of HIV status, and along the HIV Care Continuum							
Strategy 3.3.1 Adopt policies that reduce barriers to improving accessibility of clinical and support services for PWH.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status

Create consistencies (e.g., longer time between recertification, reciprocal eligibility) within the RWHAP-funded care system to eliminate barriers to HIV care.	# of new policies and procedures that ensure consistency and efficiency in RWHAP enrollment and redetermination	2022		Parts A and B	Reciprocal eligibility established November 2022		
Explore the incorporation of afterhours and weekend services for PWH to promote retention in care and adherence to treatment.	# of HIV care and support service agencies providing after hours and/or weekend services	2022		Parts A and B, Areas 3 and 3/13 lead agencies	From 2022 to current there are a total of 20 service providers who provide HIV care and support services after hours/weekends		
Goal 4: Achieve integrated, coordinated efforts among all partners and interested parties who wish to address the HIV epidemic.							
EHE Pillar: RESPOND							
Objective 4.1 Integrate programs to address the Syndemics of HIV, STIs, viral hepatitis and substance use and mental health disorders in the context of social and structural/institutional factors including stigma, discrimination, and violence.							
Strategy 4.1.1 Integrate HIV awareness and services into outreach and services for issues that intersect with HIV such as intimate partner violence, homelessness, housing instability, STIs, viral hepatitis, and substance abuse/mental health disorders.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Expand marketing and advertising campaigns of internal and external partners to promote increased awareness of resources and services.	# of advertising campaigns created and # of internal and external partners participating in marketing and advertising campaigns	2022			Parts A and EHE, and HIP providers, Areas 7 and 3/13 lead agencies		
Increase partnerships with providers to conduct mobile HIV awareness and services.	# of partnerships created with providers that conduct mobile services	2022			Parts A and EHE, and HIP providers, Areas 7 and 3/13 lead agencies		From 2022 to current there are a total of 20 service providers have mobile medical units
Use social media and outreach to disseminate program results and success stories.	# of success stories and program results disseminated via social media	2022			Parts A and EHE, and HIP providers, Areas 7 and 3/13 lead agencies		
Objective 4.2 Enhance the quality, accessibility, dissemination, and application of aggregate data and analytic analyses, including data regarding HIV prevention and care continuum and social determinants of health.							
Strategy 4.2.1 Promote collection, electronic sharing, and use of HIV risk, prevention, care, and treatment data using interoperable data standards, including data from EHRs, in accordance with applicable federal and FL law.							
Activity/Performance Measure	Measure Definition	Baseline Year	Baseline Value	Year 5 Targets (2026)	Data Source	Notes (Including Responsible Data Staff & Responsible Program)	Progress Notes & Status
Create a centralized system or dashboard to disseminate aggregate HIV-related data (e.g., testing, treatment, surveillance) internally and externally that can be readily used to assess local area disease burden, obtain information needed for funding requests, and data required for time sensitive action and response.	# of data dashboards created and # of DUAs established	2023			Part A		Data shared in www.CentralFL.HIV
Collaborate with FDOH to create a reciprocal client informed consent form and release of information to acknowledge that data may be shared to improve service provision, linkage, and retention services.	# of policies and procedures developed to create a reciprocal client informed consent and release of information	2022			Parts A, B, C and FDOH		Data Sharing Consent established 2022
