

# 2026 Q2 Training Eval Instructions

# How long have you been on the Planning Council?

# The goals and objectives of the training were clearly defined.

# I learned something new today.

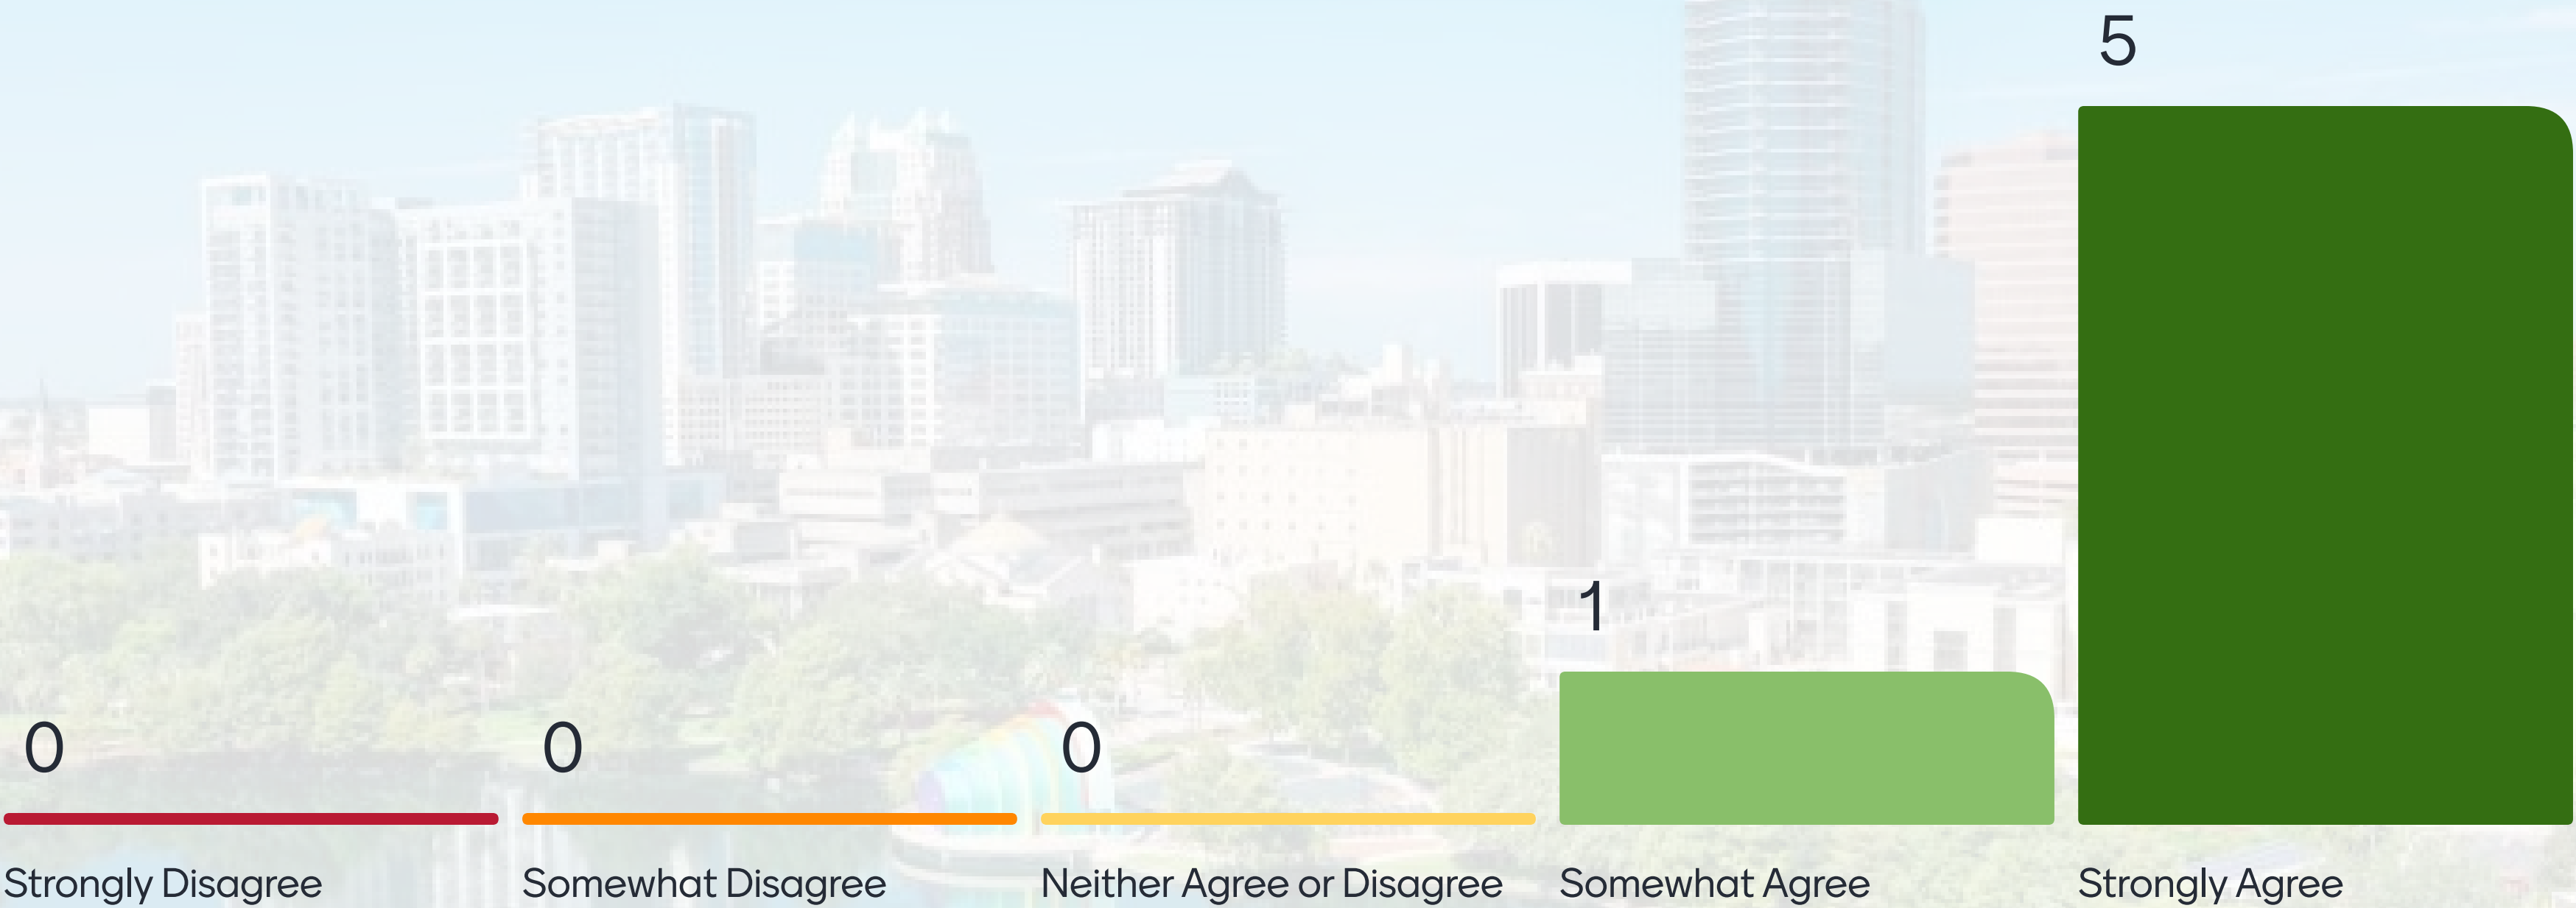

# The training was well organized.

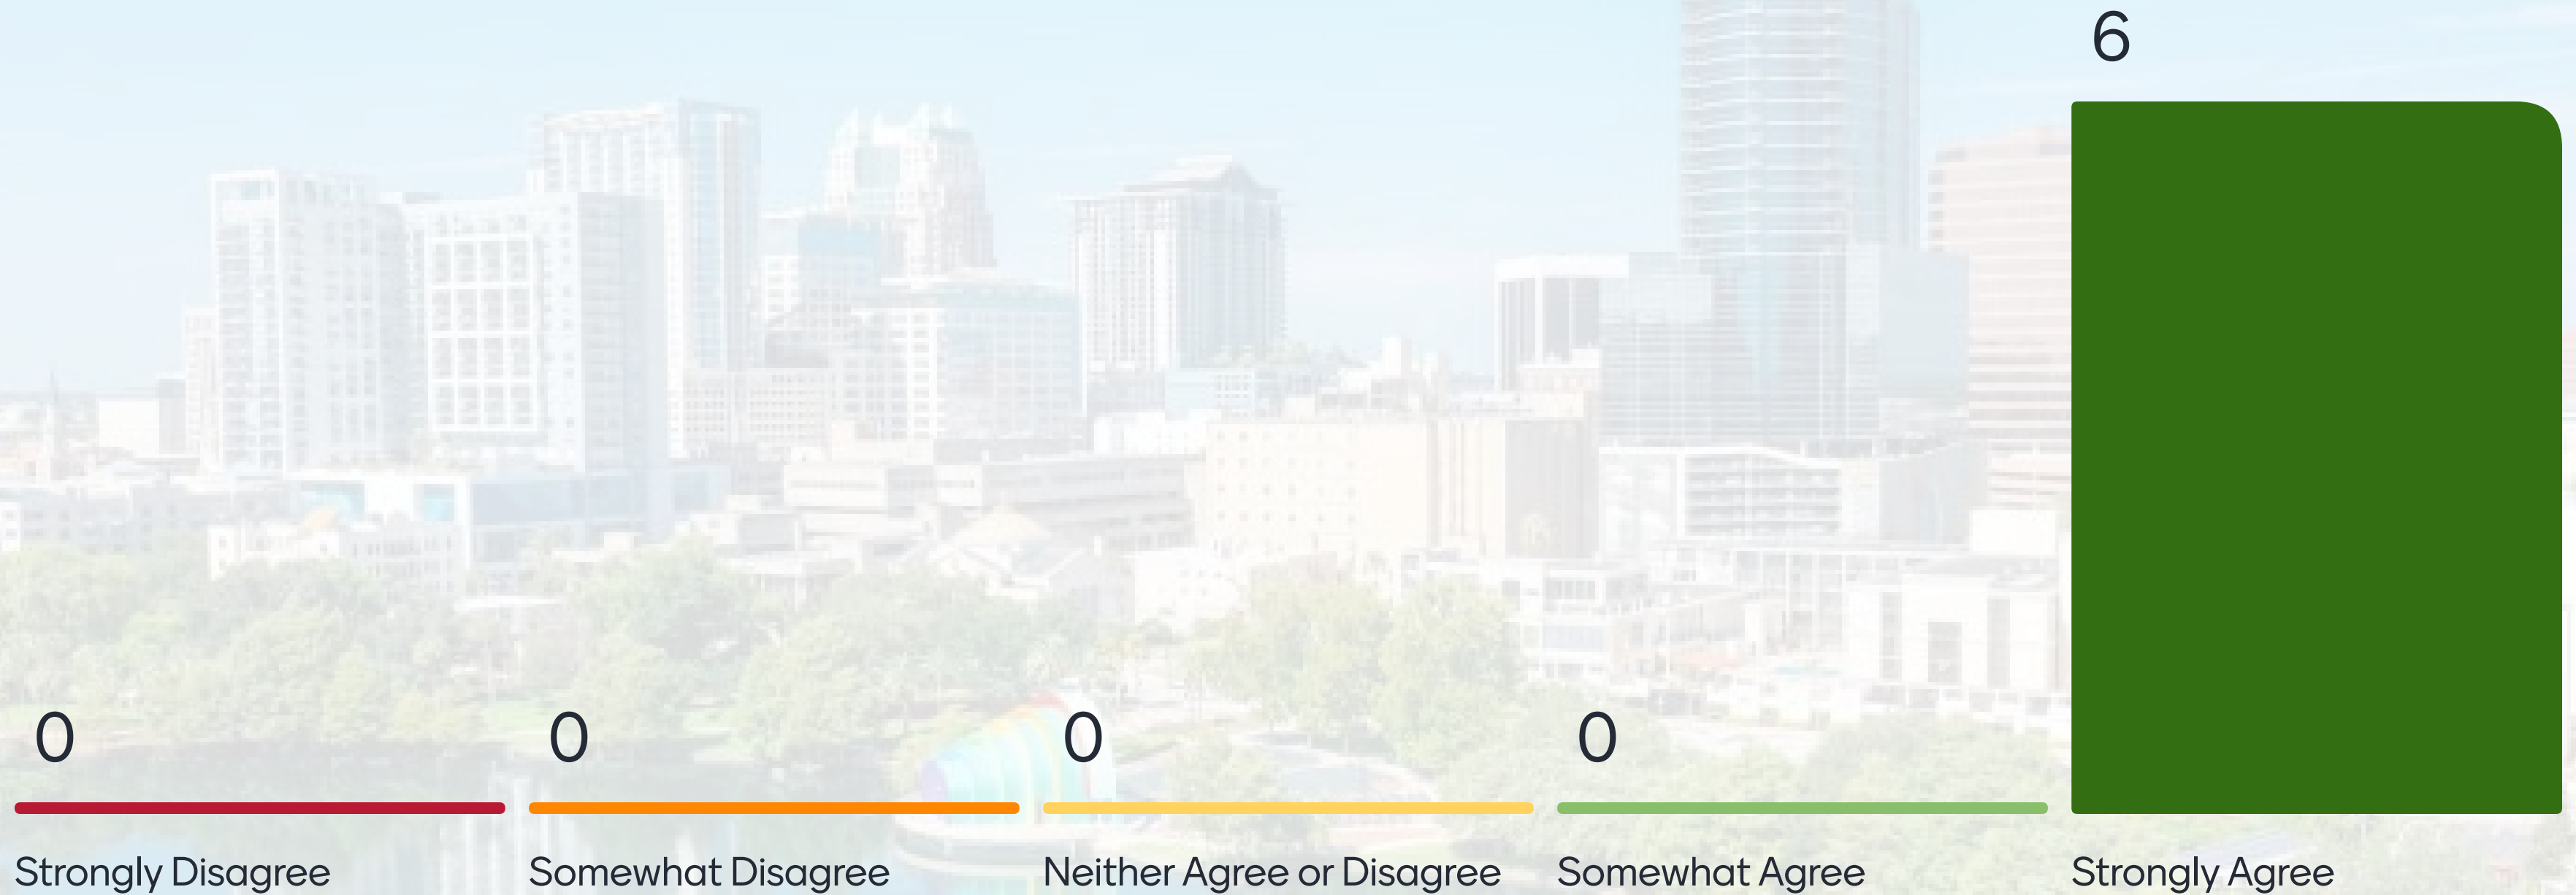

The content of the training was relevant to membership on the Planning Council.

# The information provided was clear to me.

# The trainers/presenters were knowledgeable.

# The trainers/presenters were easy to understand.

What training topics would you or your fellow members benefit from? Answers will help Membership & Engagement Committee plan for future trainings.

Different Communication Styles, Leadership (Chair) Responsibilities.

Training on what emotional intelligence is and how Emotional Intelligence can be practiced and strengthened.

Ethics, diversity training

What help can we get if we can't bring it up in the meeting. and part A B and health departmen does nothing?? Is the what the planning council it for helping the Clients that need help????

The training was informative

N/a

Na

# What are some other interactive ways that we can test your knowledge during training?

Keep setting scenarios where the committee has to understand and identify how a meeting is not only ran but brought back into order

scenario plus multiple-choice questions

Explain a scenario wrong — and allow others to give a flawed explanation, and you challenge me to fix it.

We need people with HIV to help us navigate the system we do not need to tell us to set down and shut up we need training how to get around part A B and health department so we can help others

How do we really help clients. Do we listen to them or just let it pass

explain why pcs has so much control over how is it what participating miss counting not know for week at another meet never tell membership that this was change on severe time this has happened. Vote no

How can we have a voice when we do not know how to say something and other dismiss you as stupid. There are outside with chairs and not on does nothing so ageing voices not heard

Find someone outside PCS to do the training and heart of united way . and not a member panning body

# What worked well for you during this training?

The different scenarios and group-chat discussions gave us time to reflect on what we handled incorrectly, and they helped us think through better ways to approach each situation.

people being there self and people leaving did help to keep focus on training

# In what ways can we improve this training?

The training was handled exceptionally well and felt well-organized throughout.

More ways we can help client with out them most would not have job they should be the Focos!!!

more interaction

Na

Additional comments or feedback about the training or messages for the presenters or the Membership & Engagement Committee.

Thank you for all you guys do.

Membership should be inform when other committers are talked into changing vote having chair bot NO NO. Also committee changers are Member ship job not any other committee
